SKILLS

Good at:

- C Language
- Java Language
- WordPress
- Assembly Language
- MS SQL Database
- MS Office
- Scratch
- English

Certification

2019: Certificate in Information Technology for Beginners from The Brains College of Information Technology and Hardware Engineering

ABOUT ME

As a dedicated computer science student, my journey is defined by a passion for all things tech. Proficient in navigating the MS Office suite. My programming expertise shines through in languages like C and Java with a good combination with frontend development, while my understanding of databases underscores their important role in modern applications. Along with, I have experienced in WordPress website development, harmonizing code with creativity. These technical skills, coupled with my expert communication abilities, position me to effectively contribute and collaborate as I continue to grow and learn in the dynamic territory of computer science.

EDUCATIONAL BACKGROUND

- MATRIC (Computer Science) from **American Lycetuff School** in 2019
- INTERMEDIATE (Computer Science) from **Government College University Lahore** in 2021
- BSCS (Bachelor of Science in Computer Science) from **COMSATS University Islamabad, Lahore Campus** at present (Semester 5)

PROJECTS

- Menu driven C program that can be used to input, retrieve, or update information of teachers and students at a school **(in Semester 1)**.
- Brochures and Visiting Cards using MS Word **(in Semester 1)**.
